

GERMANY'S ATTEMPT TO ALIGN MEXICO AND JAPAN IN HOSTILE CONSPIRACY AGAINST U. S. FRUSTRATED

American Officials Believe Letter Instigating Plot Did Not Reach Carranza Or Japan

Washington, D. C., March 1.—Germany's attempt to align Mexico and Japan in a hostile conspiracy against the United States has been frustrated.

At the state department today, it was intimated that so far as is known the letter of Germany's foreign secretary, Zimmerman, the authority of which was vouched for by President Wilson, personally, to the senate today, never reached President Carranza. Being thus intercepted it was never passed on to Japan. While the federal authorities admit that they are not positive that the document was held in this country, they had no reason to believe that it ever reached the German minister, Eckhardt, at Mexico City.

Attention is called to the fact that in the instructions Zimmerman stipulated that Eckhardt should only broach the matter to President Carranza as soon as it is certain that there will be an outbreak of war with the United States. "It is pointed out that this certainty had not developed at the time Ambassador Bernstorff was in this country."

Doubt as to the authenticity of the Zimmerman letter, voiced in the senate early today, because of its text being first become public through the press was quickly dispelled by Senator Swanson, who

JAPAN RENEWS FRIENDSHIP WITH U. S.

Washington, March 1.—Pledging continued friendship to the United States and continuance of its relations with the allies, the Japanese embassy this afternoon issued a formal statement declaring that "under no circumstances" would the Japanese government entertain such "an invitation" as Germany attempted to send to Tokyo.

The statement read:
"With regard to the alleged German attempt at inducing Japan and Mexico to make war upon the United States, made public in the press this morning, the Japanese embassy while having information as to whether such invitation ever reached Tokyo desires to state most emphatically that any invitation of this sort would in no circumstances be entertained by the Japanese government, which is in entire accord with close relations with the allied powers on account of common agreement and common causes and moreover whose friendship with the United States is every day growing in sincerity and cordiality."

made a formal statement announcing that the president had authorized him to say the published statement was substantiated.

That the Japanese government would not consider the proposition such as that advocated by Secretary for Mexican Affairs Zimmerman in his Mexican-Japanese plot "note" was a declaration expressed by Secretary Lansing today.

Lansing expressed confidence in governments.
Lansing authorized the following statement:
"The department does not believe that Japan has had any knowledge of this or that she would consider any proposition made by an enemy."

Lansing also expressed belief that the German government would also ignore such proposition. He said:
"We have confidence that Germany would not become a party to it in view of the friendly relations between this country and the de facto government."

While with today discussion of the sources of the government's information on the German plot, lest "some one's life be endangered," the state department did admit that it has full evidence of the plot, that the Zimmerman note had reached Ambassador Von Bernstorff here and that it also had reached the German minister in Mexico. Doubt was expressed that General Carranza himself had ever seen the communication or been informed of its contents owing to the fact that the plot was not actually to take form except

LETTER REVEALING PLOT AGAINST UNITED STATES

Washington, D. C., March 1.—A letter, forming the basis of Germany's plotting forwarded from Berlin, January 19, via Count Bernstorff, for the German envoy, Von Eckhardt, at Mexico City, said:

"On the first of February we intend to begin submarine warfare unrestricted. In spite of this, it is our intention to endeavor to keep the United States of America neutral. If this attempt is not successful we propose an alliance on the following basis with Mexico: That we shall make war together and peace together. We shall give general financial support and it is understood that Mexico is to re-conquer the lost territory in New Mexico, Texas and Arizona. The details are left to you for settlement. You are instructed to inform the president of Mexico of the above in the greatest confidence as soon as it is certain that there will be an outbreak of war with the United States and suggest that the president of Mexico on his own initiative should communicate with Japan suggesting adherence at once to this plan, at the same time offering to mediate between Germany and Japan. Please call to the attention of the president of Mexico that the employment of ruthless submarine warfare now promises to compel England to make peace in a few months."

U-BOAT WAR KILLS TWO CHICAGO WOMEN

Mrs. Mary Hay and her daughter.
Mrs. Mary Hay of Chicago and her daughter are the latest American victims of Germany's ruthless submarine warfare. They were passengers on the torpedoed liner Laconia, and died from exposure on one of the lifeboats.

ROCHESTER MAKES SAFE VOYAGE

Bordeaux, March 1.—The American steamer Rochester safely arrived at the mouth of the Gironde river early today, having passed through the submarine zone.

Food Probe Fund Stricken From Senate Bill

Washington, D. C., March 1.—The \$400,000 appropriation, passed by the house, for a nationwide food investigation by the federal trade commission today was stricken from the sundry civil bill by the senate appropriation committee on the grounds of economy.

German Consulate Robbed

El Paso, Texas, March 1.—The German consulate at Juarez was robbed last night and all government papers belonging to Consul Max Weber, taken, it was announced today.

English Town Is Bombarded

London, March 1.—Lord French, commanding home defense forces, reported the injury of one woman in the bombardment of Broadstairs today by hostile aeroplanes. Broadstairs was bombarded last week by German destroyers.

WILSON STANDS FLATLY BEHIND THE SENATE BILL

Washington, March 1.—President Wilson has informed congress that he stands flatly behind the senate bill granting him full powers and a vote of credit to handle the international situation. This was made known at the White House following reports that the president approves the house bill which greatly modifies his request. The president will sign the measure only when it conforms with his full desires and for that reason he is putting all of the administration strength behind the bill, drawn by the senate committee.

SENATE KILLS INDIANA EXCISE TAX MEASURE

Indianapolis, Ind., March 1.—The excise tax bill was killed by the senate today by a vote of twenty-nine to eighteen. The measure had been strongly advocated by Governor Goodrich and administration leaders.

Describes Mysterious Movements Of Three Carranzistas In Japan

New York, March 1.—In view of the disclosures of Germany's attempt to align Mexico and Japan, it appears probable these three Carranzistas, in an alliance against America, a story written by a Tokyo correspondent January 12, and sent by mail, takes on a new significance today. The story told of the "mysterious" movements, in Japan of three Carranzistas.

BLAME PLACED ON U. S. BY GERMANY

Berlin via wireless to the United Press, March 1.—If the United States decides the sinking of the Cunard liner Laconia is a cause of war, Germany will regard responsibility for the conflict as resting upon Washington.

In well informed circles it was stated today that Germany, having warned all neutral countries, that all ships in the war zone would be sunk without warning, it is the fault of neutrals if their ships are sunk in this danger zone.

PRESS OPINION ON PLOT EXPOSURE

Editorial comment on the German-American crisis following the exposure of a German plot to align Japan and Mexico against the U. S. follows:
INDIANA DAILY TIMES: "It seems that at last the whole country is compelled to awaken to the stubborn fact that whereas for more than two years men have uttered 'peace, peace, there can be no peace,' there can be no peace. The United States has been in a state of war as to the approval on the Berlin conspiracy."

Activity Of Swiss Minister Is Annoying To Uncle Sam

Washington, D. C., March 1.—Accumulation of annoying activities of Dr. Paul Ritter, Swiss minister to the United States and Germany's indirect representative here, has tended to put him in the same near-personal non grata class in which German Ambassador Von Bernstorff several times found himself following his propaganda schemes of the last two years.

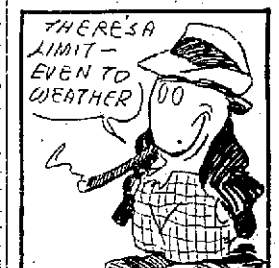

While government heads refused to comment officially on the matter, some privately admit that the administration is coming to believe that Dr. Ritter not only inherited Von Bernstorff's diplomatic work here, but that he has taken up as well certain German propaganda work that may force a flat showdown between him and the state department.

The first evidence of this sort of work was Dr. Ritter's dissemination of reports that Germany was anxious for a German-American conference at which all points at issue between the two nations could be discussed.

This propaganda work was started exactly one week after severance of German-American relations.
What chiefly incensed Secretary Lansing and President Wilson was the fact that Dr. Ritter made his "peace conference" suggestions to newspaper men several hours before the state department had any idea of them. It was learned today that his hurried trip to the state department within a few hours after he "permitted" the "peace conference" news to go through the press was in response to an "urgent request" that he call on Secretary Lansing.

Chillicothe, O., March 1.—Dr. W. H. Silbaugh, secretary of the Ross County Medical Association, was instantly killed today by a shot gun, which accidentally discharged while he was placing it in his auto in the garage at his home.

"I'm a man of peace. I've said it before and I say it again. I've fit, blood and died for peace repeatedly since this fool war started, but, by heck! if we have to face that Mexican-Jap combination I'm in for climbing 'up on the whole bunch and down' the job so thoroughly that the mere mention of the name 'America' will give 'em the 'back ache' for generations to come. There's nothing like havin' a reputation for doin' a good job. Here's for tomorrow!"

SHIP ASHORE

Norfolk, Va., March 1.—Pounded with terrific seas which threatened any minute to break her up the American steamer Raven was ashore today half a mile south of Bodie Island.

Unusually thick weather and the seas made it impossible for life savers to reach the helpless steamer.

Turks Closely Pursued By the Victorious British

London, March 1.—Cavalry and gunboats are continuing the pursuit of beaten Turkish troops retreating from Kut-el-Amara, the official statement from the Mesopotamian front today said. Six guns, three mortars, eight mine throwers and thirty pontoons, in addition to a large river vessel, were captured in Tuesday's fighting. Much bridge and other material also has fallen into the hands of the British troops.

Columbus, O., March 1.—Attorney General McGhee in a written opinion declared today the pending Gilmore senate bill, No. 152, will, if passed, in effect wreck the Valentine anti-trust law.

McGhee, in his opinion to Senator Gilmore, says:
"The proposed supplement to the Valentine law is not a mere change in detail as to the mode or degree of its enforcement but an essential change in the character of the law itself, taking away from it the certainty of illegality as to every act forbidden by it."

The Gilmore bill, as drawn, authorizes combinations in "reasonable restraint" of trade. McGhee protesting against Gilmore's amendment to cripple the Valentine act declared the anti-trust law, passed in 1898, was "in response to an urgent need and universal public demand for restraint upon the evil of constant formation and growth of combinations in restraint of trade, the tendency of which was to subject the common mass of people to economic and industrial domination of aggregations of capital."

Gilmore on receipt of McGhee's opinion, said he will drop efforts to get it passed.

The bill already is on the calendar to come to a vote soon.

El Paso, Texas, March 1.—United States government agents investigating reports of German assistance being given Bandit Villa have information that Germans have been advising the bandit leader as to his field operations and have been aiding him with money. It is declared that 200 Germans now remaining in northern Mexico are being given guarantees of safety and special privileges by both Villa and Carranza authorities.

Investigations conducted by British agents in El Paso recently resulted in obtaining information indicating that activities of German secret agents in Mexico have extended over a long period. The British agents say they have obtained proof that German interests instigated the battle of Parral, in which the American troops were ambushed by the Carranza soldiers while the American troops were standing off a street mob in April, 1916.

After the battle General Jose De La Luz Herrera, commander of the Carranzista garrison, made affidavit before American army officers in which he charged that German Consul Agent Koch at Parral, had "worked up the fight."

London, March 1.—Speaking in the Reichstag today, Foreign Secretary Zimmermann referred to "a telegram from the Swiss minister at Washington saying that America desires to avoid war, provided Germany is willing to treat on the question of submarine blockade."

The quotations were furnished in a wireless dispatch from the official German press agency. Zimmermann was also quoted as declaring Germany is in all ways convinced that the submarine warfare ought not to be restricted.

The telegram which Zimmermann mentioned was undoubtedly transmitted by Dr. Ritter at Washington, at a time immediately after Washington was advised of the German submarine warfare, and before President Wilson broke off relations. This feeling on America's part was semi-officially stated at that time.

"Germany is resolved at all costs to maintain her blockade, but naturally desires to reach an understanding with America without clashing with this object," Zimmermann said.

After her resolve to use her strongest weapon, Germany cannot withdraw, the German foreign secretary continued.

Secretary of State Lansing's reply that the United States was prepared to treat only if Germany withdrew her resolution of January 31, was not acceptable, thus dooming the negotiations to failure before they were really begun.

The Bell Telephone company's lines to Fullerton are down as a result of the heavy snow, which fell Wednesday morning.

BRITISH WITHIN A MILE OF BAPAUME

London, March 1.—British forces are within a mile of Bapaume. The German retreat is still in progress, but during the last day or so the harassing of the advancing British troops has been more pronounced. Every sort of expedient is being used to delay the forward progress of Field Marshal Haig's forces.

The front on which the British have advanced was increased today to approximately 13 miles by announcement of the occupancy of positions more than half a mile northeast of Gommecourt. This is approximately the most northerly point from there down to a position about midway between Guedecourt and Beaulencourt, the new advanced front of the British zig-zags in and out. Front dispatches today declared Gommecourt fell without a blow from the enemy, the British simply slipping in on a deserted village.

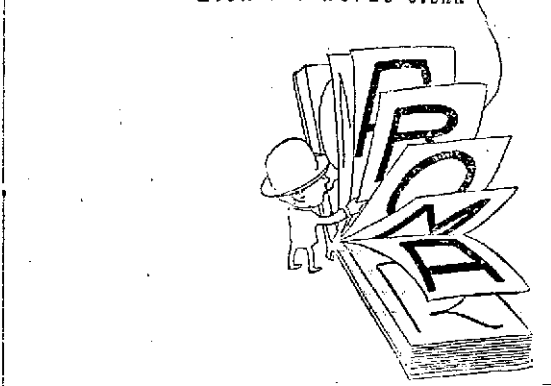

Evidence accumulates that the evacuation of Bapaume is under way. Information from the front today said the Germans had methodically destroyed all high towers in the city plainly in order to prevent their utilization by the British as observation posts, when Bapaume fell into their hands.

Ten Horses To Be Sold

WM. S. HART AND ALMA REUBENS IN TRIANGLE-KAY BEE PLAY,
"TRUTHFUL TULLIVER."
Don't Miss This at The Columbia Tonight

In "Truthful Tulliver" William S. Hart appears as a traveling newspaper editor who arrives in Glory Hole to start a paper. With him is his compositing and man-of-all-work, "Silver Lode" Thompson.

Upon opening his office Tulliver is visited by York Cantrell, a smooth customer, whose mining interest keep him much in the

The next day "Truthful" states in big headlines that Doyle must go, and the following morning finds a notice on his door which states that Doyle will be in the Forty Rod saloon the following morning at 10 o'clock and that there is not a pen pusher in Arizona that can run him out of town. "Truthful" surprises Doyle and his henchmen by coming into the saloon through a rear door. From his horse he lassoes them and pulls them out of a window and down the street, out into the desert, where he tells them to keep on going and never return to Glory Hole.

That night "Truthful" is shot at from York Cantrell's room by Doyle, who has returned for that purpose. "Truthful" then drives

both of them from town, not knowing that York has wronged Daisy Burton. Daisy confesses to Grace, and Grace finds "Truthful" who, misunderstanding, thinks she is the one that enres for Cantrell. He promises to bring him back and makes a hard ride to the railroad in time to intercept Cantrell, whom he forces to return with him.

Then understanding comes. Cantrell wants to marry Daisy and live a new life, and "Truthful" comprehends his mistake. Grace, with a happy face, turns toward him, with her thanks and relief writ large on her face, and sees him watching her with such eloquent eyes that an understanding is very soon reached.

Makes Good As Family Standby

Nerv-Worth A Blessing In This Local Dealer's Home

The following so convincingly clinches a leading Nerv-Worth claim as to be worthy of repetition:

Fisher & Streich Drug Store: For four years or more I have been having trouble with my stomach. In the morning I would be sick and could not eat. My wife has had stomach trouble and nervousness for a year and had poor appetite.

I purchased two bottles of Nerv-Worth at your store and after taking we both cannot say too much for Nerv-Worth. I was in Columbus last week and recommended it to a friend there and on my recommendation he at once ordered some Nerv-Worth from his druggist.

G. C. WALLACE,
Dealer in second-hand furniture,
Sixth and Gay Sts.

The Nerv-Worth demonstrator added that Mr. and Mrs. Wallace were on their third bottle of Nerv-Worth and enthusiastic friends of this supreme family tonic. Your dollar back at the Fisher & Streich pharmacy if Nerv-Worth does not benefit YOU.

Ask at Streich's for the new Nerv-Worth Laxative Tablets, 25c a box. Wonderfully good for liver and bowels. Especially valuable in connection with Nerv-Worth tonic.

Meeting Postponed.

On account of the bad weather the regular meeting of the Royal Neighbors scheduled for tonight has been postponed. The next meeting will be held in two weeks in Harri Hall, Gay and Gallia streets.

Wm. S. Hart in Triangle-Kay Bee Play "Truthful Tulliver."

COLUMBIA

10c - TONIGHT - 10c

EVERYBODY'S FAVORITE

William S. Hart

In his most thrilling and sensational picture

"Truthful Tulliver"

A typical "Hart" picture in five acts brim-full of the clean, open life of the West and its devilry too. Full to overflowing with powerful, rapid action. It is extremely manly in spirit, free from jarring details and the story is told as only William S. Hart can tell it. By all means don't miss this picture.

NEWS OF ALL SAINTS CHURCH

The pastor preached at the Wednesday evening service, taking the place of the pastor of St. John's, Columbus, who was unable to keep his engagement. There was a good congregation present in spite of the bad walking.

The Confirmation Class for adults will meet this evening at 7:30 p. m. in the pastor's office on Fourth street. All adult candidates are urged to be present.

The special preacher at the service tomorrow evening will be the Rev'd. George Kinney Johnson, pastor of Chillicothe. The service commences at 7:30 p. m. and lasts about one hour. Strangers and visitors welcome.

We are all looking forward with great pleasure to the visit which our old friend Archdeacon Dodson will pay us on Sunday. Mr. Dodson will preach at both morning and evening services. Try and arrange to attend both these services. The archdeacon is one of the most popular preachers in the diocese, and will bring

us a helpful and inspiring message.

The Choral Bacharist on Sunday morning will commence at 10 o'clock instead of at 10:30 o'clock owing to the fact that there will be many communicants and a sermon by the archdeacon. Sunday school and Brotherhood Class will assemble at 8:45 a. m. instead of 9:00 a. m. and close at 9:45 a. m. You are asked to give as much publicity as possible to this change of time.

While the attendance at the 9 o'clock celebration on Mondays, Thursdays and Saturdays has

been exceptionally good there is room for improvement in the attendance at the 7 o'clock services on Tuesdays, Wednesdays and Fridays. There must be many communicants who can easily attend this service and the pastor trusts that we may have more communicants in attendance next week.

RELIEVED RHEUMATICS ENTHUSE

All of Them Loud in Their Praises of "Neutrone Prescription 99"

A working man buying a bottle of "Neutrone Prescription 99", was asked how it was helping him.

"Helping me," he replied. "Why, there is nothing on earth like it. You don't know how my poor swollen, stiff joints and muscles pained and burned. I was nearly crazy with the suffering and the worry of losing so much time and pay."

"Before I knew about 'Neutrone Prescription 99' I tried all kinds of tablets and liniments, but one bottle of 'Neutrone Prescription 99' helped me so much that I am never without it now. All pain and swelling is gone, and I feel like doing things."

"Neutrone Prescription 99" certainly must be a wonder," the druggist replied. "We have never handled anything like it. They all say the same. 50c and \$1.00 the bottle, mail orders filled on \$1 size.

Clara Kimball Young At Lyric Tonight
"Trilby" is a great combination of artistic presentation, dramatic strength and effective atmosphere.

At The Exhibit

The second great serial written by George B. Seitz, the writer of "The Iron Claw" is being shown at the Exhibit tonight. "The Shielding Shadow" is the title of this second serial and it is more thrilling, sensational and mysterious than "The Iron Claw" which abounded with thrill after thrill. Grace Darnold is the star, supported by Ralph Kellard and Leon Barry. "Victims of Vanity" is a two-part Pathe drama. "The Test", a five part Gold Rooster Pathe drama, is the show for tomorrow.

At The Temple

A seven reel program tonight with special music. Another two-reel drama of "The Girl From Frisco" series of Western pictures, in which Marin Sais and True Boardman play the star roles. Two more reels of "Gloria's Romance", that gripping and thrilling serial, featuring Billie Burke, will hold you spell-bound for half an hour. "Jabs and Pokes" is a side-splitting, rip-roaring comedy brimful of fun. "An Indian Heart" is a two-part Western drama of excitement and sensation.

At The Arcana

A two-part Big U feature production is the headline at the Arcana tonight. "The Jewel of Death" is the title of this extraordinary photoplay in which the popular favorite, Edna Maison, takes the leading role. She is the star, with a tremendous supporting cast of Universal stars. A play and story that will grip your interest. "The Wizard's Plot" is a one-part Kalem thriller of the "Grant Police Reporter" series. Edith Roberts is the leading character in "The Whelp," a sensational Imp detective drama.

KIDNEYS NEVER CAUSE BACKACHE

Rub pain, soreness and stiffness right out with St. Jacobs Oil.

Kidneys cause backache? Not! They have no nerves, therefore can not cause pain. Listen! Your backache is caused by lumbago, sciatica or a strain, and the quickest relief is soothing, penetrating "St. Jacobs Oil." Rub it right on the ache or tender spot, and instantly the pain, soreness, stiffness and lameness disappears. Don't stay crippled! Get a small trial bottle of "St. Jacobs Oil" from your druggist and limber up. A moment after it is applied you'll wonder what became of the backache, sciatica or lumbago pain. "St. Jacobs Oil" stops any pain at once. It is harmless and doesn't burn or discolor the skin. It's the only application to rub on a weak, lame or painful back, or for lumbago, sciatica, neuralgia, rheumatism, sprains or a strain.

—but pleasing your taste isn't all

Not by a long shot! Because lots of cigarettes may please your taste—you've never expected a cigarette to do more than that.

But Chesterfields do something else besides please the taste—

Chesterfields just "touch the spot," they do what cigar smokers say a cigarette can't do—they "SATISFY!"

And yet, they're mild!

It's the blend—that's the idea! That, together with the extra high-quality of the imported and domestic tobaccos. And the blend can't be copied.

If you want good taste in a cigarette, and then more than that: a cigarette that "satisfies"—try Chesterfields, today.

20 for 10c

Chesterfield CIGARETTES

of IMPORTED and DOMESTIC tobaccos—Blended

They Satisfy!—and yet they're Mild.

REVIVALS

TRINITY CHURCH
Wednesday evening the revival
at Trinity progressed for enough
in interest and enthusiasm for
some one to start up the song,
"Old Time Religion," and those
versed in revival lore know that
things are warming up when that
stage is reached. The congrega-
tion was small, for Trinity, no
doubt due to the snow and slash
but Rev. Laughlin gave one of his
best sermons.

The soloist of the evening was
S. R. Crawford, always a favorite
wherever he sings and his rendition
of "Love's Reason Is Ample" was
splendid.

Rev. Laughlin took as his sub-
ject, "Access to the Father
Through the Son." He stated that
the only way we cared to view
God was as a Father. We do not
care to know Him as a Master for
we are so slow in seeing opportuni-
ties and in doing work for Him
that we would not feel easy to
know that He was a master. Too
many of us see everything but op-
portunities to do things for God,
and we would be scared to death
if a chance would run up in front
of us, and to show his earnestness
the evangelist said, "Now if you
don't like that, go to work."

We do not exactly like to con-
sider God as a King for if we did
we would work harder for His

Kingdom. Oh, I know we all pray
that beautiful prayer, "Thy King-
dom come, Thy will be done, etc." and
then by our actions we say,
"but if you don't want to come,
Kingdom, stay there."

We don't like to think of God
as a judge, for who would feel
free to stand before Him, know-
ing we would get absolute justice.

Then came the point of the ser-
mon. Jesus Christ, by His finish-
ed work, paved the way, so com-
pletely that through Him we have
access to the Father. The plan is
clear, and in strong tones of de-
nunciation the speaker said that
the person who went through this
life without preparing to meet
God, "Lived like a fool, died like
a fool and went to Hell like a
fool."

If any man sin he has an advo-
cate with the Father. If you had
a case in court that involved your
life and you did not know just
when the case would be called,
perhaps tomorrow morning, it's
pretty certain you would have a
lawyer to look after your case.
Many here tonight perhaps are
facing that sure trial, not at our
courthouse here, and Jesus Christ
is waiting to be your attorney, but
He won't force Himself. If we
want Christ there, we must have
Him here. If we reject Him here
He will reject you there. And just
remember that no man can get to
God except through the grace of
Jesus Christ. The thing to do is
to hitch on to the power of God
and let it uproot us from sin. This
power is a great leveler. It makes
the rich come down on the level
with the poor and the poor on the
level with the rich. Many a poor
woman in rags is really a King's
daughter but hasn't on her royal
robes. We can all meet as one in
Christian fellowship, and if we do
not do this some folks need tun-
ing up just like a piano.

The meeting ended with an old
fashioned Methodist band-shaking.
Note
On Thursday evening the mem-
bers whose names begin with P
and Q under the leadership of
James Fulton, assisted by the mis-
sionary societies and the Ladies'
Aid Society, will be responsible for
the attendance.

WESLEY HALL MISSION
Despite the wet streets and melting
snow, the chapel room was filled at
7:20 p. m. The congregation joined
freely in the song service. It really
did seem that Prof. Gwyn had every
man, woman and child in the house
singing at one time.

The choir leader is not only a Gos-
pel singer himself, but he gets every-
one round him to singing. Mrs.
Gwyn is a professional with the or-
gan and guitar. She is truly a re-
vival musician, always putting life and
energy into her selections. Prof.
Gwyn and his wife sang a duet, en-
titled, "Shine On."

Rev. Sanford preached from 1st
John, 3:16. Rev. Sanford is a strong
preacher of the John Wesley type.
He is never light, does not pretend
to be clownish or funny, but deep,
earnest and very sincere. He is a
real Methodist, quoting oftentimes from
Wesley and Whitfield. He uses the
altar in every meeting. Last night
at the close of his sermon he gave
his altar call for souls to come to it
and seek Christ. In but a few min-
utes the altar was crowded. Then a
row of chairs was set out in front of
the altar and soon these were turned
into an altar and filled with weeping
men and women. Wesley Hall is
truly passing through its Pentecost.
Services each evening this week at 7
p. m. The public is invited.

THE MARKETS
NEW YORK STOCKS
FINANCIAL REVIEW
New York, March 1.—The New York
Evening Sun financial review today
said:
Today's stock market again failed to
reflect more than a waiting attitude on
the part of both traders and public. The
latest exhibition of German treachery,
as disclosed in the previous scheme to
embroid this country with Japan and
Mexico, merely confirms the general
impression of Germany's desperation.
It had no influence on the market.
The copper stocks are about the only
issues in the list which continue con-
sistently firm, although most of the
group turned soft before the session
closed, but recessions were narrow.
United States Steel sold below 101 with-
out the quarterly and extra dividend to-
talling \$3 a share, a loss of a point on
more. The other industrial shares con-
tinued to give way gradually. The rail-
road list was quiet and generally lower,
with distinct weakness in a few is-
sues like Union Pacific, Reading and
New York Central. The latter trading
was practically at a standstill.

New York, March 1.—Wall Street
again stood waiting at the stock
market opening today following news
of Germany's attempts to embroil the
United States in trouble with Japan
and Mexico. Movements were ex-
tremely narrow, with small changes,
mostly downward.

Central Leather opened at 91 1/2,
off 1/2; Marine preferred 68 3/4, off
7/8; Anaconda 79, off 1/8. United
States Steel sold ex-dividend at
104 3/4, off 1/4.

Desultry trading continued through-
out the day. In the early afternoon
prices sagged. United States Steel
dropped below 91 and Republic was off
nearly a point to 75 1/2. United Valley
touched 70 1/2; American Beet Sugar was
off 1/4 at 82 1/2.

The market closed steady.

Bureau Notes

The biggest and best thing the Community Service Bureau can do is to provide good wholesome recreation for the great army of boys and girls in Portsmouth who have had no other place to play except the street. This bureau has pledged to the citizens of Portsmouth, and they are already making good that pledge. A director of recreations has already been appointed, and plans are now being outlined for a number of play centers the coming summer. An adequate amount of apparatus will be installed at least two of these centers, and each one will be given proper supervision. It is hoped to have not less than three baseball diamonds. Baseball leagues will be organized soon which will be run along the same lines as the major and minor leagues. The bureau owes the children of the city the facilities for playing, and the bureau is going to provide adequate playground accommodations. Society must treat its children "right" or suffer the consequences.

Boy Scout Department

The scouts have been enlisted in the "Brighter Portsmouth" campaign. They will be used in many ways by the committee. Another troop for the East End which will be known as Troop 4. Mr. Ransom Lockwood is scoutmaster.

The Junior Basketball League plays tonight with the following schedule: Grays vs. Evangelicals, Reds vs. Centrals.

Troop 2 will hold an important meeting this evening at 7 o'clock. Scout Patrol Leaders of Troop 8 will meet at the home of their scoutmaster Friday evening at 7 o'clock.

MEN MUST WORK OR TRAVEL**

A ban was placed on loafing to work or travel. Plants here are in Portsmouth in police court, begging for men and if you want Thursday morning by Mayor H. Kaps when a motley gang of 15 loafers faced him.

"You men must work and produce something. You will have

to the loafers, who were dismissed with explicit instructions to work or move on.

Those arrested were: William Chapman, Epp Huber, William Cherry, James Pitts, J. Mann, Robert Day, Joe Walker, C. West, Robert and T. Jones, J. Timmonds and P. Smith. They were found loafing around the plant of the Portsmouth Paving Brick Company in the North End.

Lee Chapman came here from Huntington yesterday, loaded up on apple brandy he admitted in police court this morning and abused his wife who has not been living with him for three years.

Chapman denied he made a gun play at his wife's home in the North End yesterday. He was fined \$10 and costs.

Thomas Smith, who says he is a sheet worker, was charged with begging on the streets and with intoxication. He admitted his guilt, said he would sign the pledge for three years and was fined a ten spot.

George Athlon was fined \$10 for drunkenness and John Atkins \$5. T. Mooney got pickled last night and fell right dnb in front of two policemen on Chillicothe street. They showed him the way to the police station. He was fined \$5 this morning.

Al Maier, local brewery agent, is battling with an attack of rheumatism.

**Cost \$85.80 To Kill
Duck And Squirrel**

It cost Shirley Ray, a well-known Market street citizen, just \$85.80 to kill a duck and a lone squirrel on the Bannan farm nine miles north of the city last Monday.

Ray appeared before Squire Byron Thursday morning and entered pleas of guilty to three charges, killing a wild duck on Monday, killing a duck

out of season and killing a squirrel out of season. He was fined \$25 and costs on each charge. An affidavit charging him with these offenses was signed by Deputy Game Warden Harry Ball, who also relieved Ray of his shot-gun. "The state may appropriate the gun. I will write the authorities about that," Mr. Ball said Thursday.

Sextette Friday Night

The sixth number of the high school lecture to be given Friday night by the Zedeler Symphonic Sextette will begin immediately after the P. H. S. Gallipolis basketball game. The sextette

gives a splendid musical program. The symphonic effects obtained by this company in their concerts is the result of a specially built reed organ of unique construction.

STRANDED MEXICANS GIVEN JOBS ON C. & O. N.

Columbus, March 1.—Superintendent W. F. Hauek of the state free employment office, soon solved the problem of what to do with the 15 stranded Mexican laborers who were brought elsewhere from the south under a

promise that was not kept. The superintendent found employment for them on the new C. & O. railroad being erected from Portsmouth north, and he shipped them to Waverly for their new jobs Tuesday night. They will get \$2.25 a day.

**CROSS, FEVERISH
CHILD IS BILIOUS
OR CONSTIPATED**

Look, Mother! See If Tongue Is Coated, Breath Hot or Stomach Sour

"California Syrup of Figs" Can't Harm Tender Stomach, Liver, Bowels

Every mother realizes, after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish, or breath is hot, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative", and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When the little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

**Foresters

Wise, care The Daily Times, Portsmouth, O. Office Phone 60.Dear Miss Wise—Kindly give the
reasons why the Episcopalians and
Roman Catholics observe Lent.
ObligedTo Catholics and Episcopalians,
Lent is a forty day period of fast and
abstinence of prayer and meditation,
and of moral and spiritual recon-
struction. Our Lord fasted 40 days
in the desert. His chief motive in
undergoing that mortification was
not to strengthen Himself for His
subsequent encounter with the tempt-
er, but to instruct us by His divine
example to acquire ourselves worthy
of an obligation imposed by the
divine law in both the Old and New
Dispensation. We learn from Holy
Scripture that fasting is an impor-
tant and indispensable part of virtue.
The practice is indeed justified by
reason as well as by revelation. Expe-
rience tells us there is a constant
struggle going on between the spirit
and the flesh, and that mortification
of the body is a powerful means of
preventing it from inciting us to re-
bellion against God. By denying
ourselves the lawful pleasures of
sense we are able to turn with greater
freedom and earnestness to the
thought of God and virtue, so that
spiritual writers speak of fasting as
one of the wings of prayer. Lastly,
our conscience tells us, and even
heavenly writers have felt and ac-
knowledge it—that we ought to
suffer for our sins and mortify the
flesh which has offended God. Self-
denial therefore is the corner-stone
of the Christian life. Our Lord
clearly defines the necessity of this
condition as a requisite for entrance
into the Kingdom of Heaven: "If
any man will come after Me, let him
deny himself and take up his cross
and follow Me." "Unless you do pen-
ance, you shall likewise perish," says
Holy Writ; and there is one sense
not often commented on in which
that sentence is particularly true.
Unless you fast, we may paraphrase
it, you will assuredly shorten your
days on earth. Gastronomic sins,over-eating and over-drinking, are
perhaps the direct or indirect causes
of more deaths than all the germs,
bacilli and bacteria known to science.
Bodily as well as spiritual health
will, accordingly, benefit from a cer-
tain period of fast. Lent is a season
holy in its purpose and sacred in its
realization. It is a time for contem-
plation—a season of prayer—weeks
of thought which should steady the
mind in God and beget indifference
to a world that repudiates Him.
Those who observe Lent in contrition
hope for an Easter when the bright-
ness of the risen Christ will show no
more dark or unhidden spots, but
radiate in mind and soul with light
similar to that it will find there.
The Lutherans, the Greek church and
many others also observe Lent.Dear Dolly—Please tell me how
I can get the love of my wife back
to me. She is a good house-keeper
and clean with it, but she don't take
the interest in her work as she used
to have. I have done her wrong and
she knows as well as I do that I
haven't been true to her. I got crazy
about a young girl when my wife was
sick, and my wife found out for her-
self, so please tell me how to win
her back as of old. I love her just
the same, but she don't believe that
I do.A MAN WITH SEVERAL
CHILDREN.
From your letter, I should say you
were one of those people who are not
sorry for what he has done, but be-
cause he was found out. Or, per-
haps it would be fairer to say that
you weren't so certain of the enormity
of your offense until it was
found out. For married people to
"play around" with other people
of the opposite sex is always dangerous,
and it is pretty sure to be disastrous
to whatever family begins it. In
your case, if you are sincere enough
and contrite enough, she may for-
give you, and I think it would be
quite safe for her to—because one
lesson of the kind you have had is
usually sufficient. Just be as good
and kind to your wife and children
as you know how, and go out withthem as often as possible, and for the
sake of her little ones she will prob-
ably forgive, even if she can't forget
your temporary unfaithfulness.
My Dearest Dolly—I am a girl
seventeen years of age, weigh one
hundred pounds, have brown hair and
blue eyes. Do you think I'm pretty?

I would like for you to answer if
you can. If it takes fifteen Company
K boys with big rifles to arrest one
of their number, how many of them
would it take to capture one German
soldier? Now, Dolly, this is no joke,
because I saw the fifteen trying to

Acting Cough Syrup**Should be kept handy in Every
Home—Easily Prepared and
Costs Little.Mother, you'll never know what you
are missing until you make up this in-
expensive, quick-acting cough syrup and
try it. Children love its pleasant taste
and nothing else will loosen a cough or
cure cold and heat the inflamed or
swollen throat membrane with such
ease and promptness. It's equally as
good for grown-ups as for children.This splendid cough syrup is made by
pouring 2½ ounces of Pinex (50 cents
worth), into a pint bottle and filling the
bottle with plain granulated sugar
syrup. This gives you a full pint—a
family supply—of much better cough
remedy than you could buy ready-made
for \$2.50—a clear saving of \$2.The moment it reaches the inflamed,
cold-congested membranes that line the
throat and air passages, the healing be-
gins, the inflamed tissues, swollen
nerves, rough spasms lessen and soon
disappear altogether, thus ending a
cough quicker than you ever thought
possible. Hoarseness and ordinary
coughs are conquered by it in 24 hours
or less. Excellent for bronchitis, whoop-
ing cough, spasmodic croup, bronchial
asthma or winter cough.Pinex is a highly concentrated com-
pound of genuine Norway pine extract,
combined with iodine and is famous
the world over for its quick healing
effect on the membranes. Ask your
druggist for 2½ ounces of Pinex with
directions and don't accept anything
else. Guaranteed to give absolute satis-

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers. Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them, 10c and 25c per box. All druggists.

Corns Peel Right Off With "Gels-It"

2 Drops, and the Corn is a "Goner!"

When you're got to walk on the sides of your shoes in get away from those awful corn-pains, there's only one common-sense thing to do.

Put 2 or 3 drops of "Gels-It" on the corn right away. Pain and inflammation will disappear, the corn will begin to shrivel from that instant, then it loosens and falls right off.

There's no other corn-remover in the world that acts like "Gels-It."

No new discovery has been made in corn-removers since "Gels-It" was born. Don't forget that fact. "Gels-It" does away forever with the use of salves that irritate, bandages that make a bubble and cause blisters that half do the work, knives and razors that draw blood. Use "Gels-It"—no more digging or cutting.

"Gels-It" is sold everywhere, 50c a bottle, or sent on receipt of price by mail to—

Sold in Portsmouth and recommended as the world's best Corn Remover by Colman's Drug Store, J. P. Davis Drug Co., and Pure Drug Co.

Fire Does \$2,000 Damage To Portsmouth Engine Co. Plant

A larid spot, noticed by Officer George Harding, sharply outlined against the snow-covered hills of the West Side, led to the discovery of a costly fire at the machine shop of The Portsmouth Engine company, Fourth and Jefferson streets, this morning at 2:20 o'clock.

The entire roof of the machine shop and tool room of this concern was destroyed. A large quantity of leather belting and pulley hangings were also ruined.

None of the machinery was damaged as far as could be ascertained last night. The total damage from fire was placed at about \$2,000 by Fire Chief George Loerner. It is covered by insurance.

There were many strange features about the fire, which tend to create an impression among the firemen that it was of incendiary origin.

The machine shop and tool house had not been used for several days, and the fire started near the roof. A large pile of oil waste was found near there.

Officer Harding walked around the plant shortly before two o'clock and there was no evidence of fire. The patrolman walked down Jefferson street to Second and up Second street to Lynn's livery barn.

Here he found that the under-taking wagon had started out on a trip and had an accident. While assisting the driver to repair the wagon Officer Harding glanced over toward the Portsmouth Engine company's plant and saw the red glare, outlined against the snow.

The alarm was sounded. The Seventh Street and East End Fire companies responded. This was at 2:20 o'clock. In just one hour the fire was out. Twelve hundred feet of hose was used in fighting the flames, which had gained considerable headway before discovered.

The machine shop is a one-story brick structure, the roof of which was constructed in saw tooth fashion, so as to allow maximum lighting facilities. A large quantity of valuable machinery is used in the shop. The belting arrangements were destroyed. But the machinery was not injured by the heat. Neither was the concrete floor cracked.

Adjoining the machine shop and tool room is the wood working department and across the street is the foundry.

The Haselbeck company will insure you. 819 Gallia street. adv

Police Unearth New Form Of Gambling

A new form of gambling has been going on in Portsmouth, the police say they learned Wednesday night when a man registering as J. W. McGinnis was arrested. He is charged with circulating pocket sales books, which take the place of punch boards driven out of the city some time ago by Mayor Kaps.

These sales books contain numbers from 1 to 36 and in addition to each number winning a prize of some kind there is a grand prize. Mayor Kaps stated today that each book would bring \$8.25 if sold and the material given away he said was not worth more than \$2.

McGinnis had already circulated 60 books and was in line for a clean up in the city if the police had not arrested him. McGinnis was picked up on Chillicothe street last night by Capt. Roma Walker, his arrest following an all day search in which the entire police force took part so determined was Mayor Kaps that the distributor of these cards should be apprehended.

McGinnis told Mayor Kaps that he had been here two weeks and was representing a Pittsburgh firm. He admitted that he had circulated the pocket sales books among women and young girls, being particularly anxious to place them in the hands of girls, who were asked to dispose of them among their friends. When they sold a book they received a wrist watch attached to a leather belt. Mayor Kaps says the outfit was not worth 50 cents.

"We simply unearthed a walking punch board in Portsmouth in the arrest of McGinnis," Mayor Kaps said in police court this morning.

GO OVER PLANS FOR IRONTON HOTEL

Ironton, O., March 1.—The directors of the new Hotel Corporation held a meeting Wednesday afternoon to discuss the plans of the new building which is to be erected soon.

Architect W. B. Richards, of the Architect firm of Richards, McCarty, Bulford & Co., of Columbus, was present and went over some tentative plans of the proposed hotel with them. Mr. Richards has not yet been employed as the architect of the building, but will present some plans for the approval of the directors. Mr. Richards was the architect of the new court house and is putting it mildly to say that his work in that connection was highly pleasing.

Tyrus Cobb May Regain Lost Crown

Detroit, March 1.—Tyrus Cobb, the superman of baseball, will make the supreme effort of his career to regain his batting laurels this season. Only those who are close to the great Detroit outfielder and who have watched him perform, season after season, realize the keen disappointment which came to him last fall when he was

compelled to remove his batting crown and hand it to his bosom friend, Tris Speaker. Cobb had led the American league for nine consecutive seasons. His ambition was to lead it for a decade. He failed, and, as he is now more than 30 years old—and certainly not quite as fast as he was three years ago—there is virtually no chance that he can lead his league for a span of ten years.

But Cobb, one of the greatest ball-players that ever lived, is going to try. He has spent the winter in the open, keeping his nerves steady, his body strong and his eyes clear. He already has told Manager Jennings that he will report with the veterans at Wapakoneta, Tex., on March 10.

"SAFETY FIRST"

Sunday golf is in vogue now in almost every city of the United States. Golfers are forbidden to play on the public courses of only two big cities—Boston and Kansas City—on Sunday. Why? For the simple reason that life would be endangered, owing to the crowded condition of these pleasure spots.

his home for the training camp on Saturday.

A duck pin team of this city will go to Huntington tonight to play Huntington's best duck pin artists at the Mas-Jestic alleys. The local players will be George McMullen, Ed Grant, George Wilhelm, Ed Leach and Ed Kelley. Will Gableman, Art Haman and Henry Charlton will also make the trip. The trip will be made on the 2:53 C. and O.

Charleston, W. Va., March 1.—Harry Lindert, leading shortstop in the Ohio State league last season, who played two years with Charleston, has signed a contract with Evansville, in the Central league for 1917. Milt Curtis and Fred Gibson, also infielders in Ohio State league last season, and Frank Barron of St. Marys, who had a trial as pitcher with the Washington Americans, one year ago, have signed with Rocky Mount, in the Virginia league.

Columbus, March 1.—Jack Perry is happy. The Italian welterweight is never so happy as "finding himself" than at any time since he started boxing here in Columbus. Jack took the bull by the horns and started an invasion last week. Three days later he took a bout on a day's notice and trimmed a 150-pound fighter Ray Parks, at Bradlock. Jack says he has bouts promised for Pittsburgh and many towns in the immediate vicinity. He is booked to box again this week—the opponent to have been selected yesterday. Then Jack is going to Philadelphia, to fight often and get that "fighting spirit" lost through inactivity in his long lay-offs between bouts here.

Outfielder Roush of the Reds is a genuine holdout. He says he will not die the quill in the ink until his salary is given a healthy boost over last year. Roush was formerly a Giant, and he created no furor in the National league by his playing after garbing himself in Red hose.

Grand Rapids, Mich., March 1.—Richmond, Ind., will be awarded the 1917 Home National in the Central league, according to announcement by League President E. W. Dickerson Tuesday on his return from the Hoosier city. It is stated that a group corporation has been formed to back the club there.

Philadelphia, March 1.—Wally Schang, catcher, signed his contract with the Philadelphia American league baseball team today. He was the last of the big three holdouts, strunk and bush having signed yesterday.

Philadelphia, March 1.—Charles A. Reed, boxer, the Indian pitcher, was made a defendant in a suit for \$15,000 damages instituted in common pleas court here today by Mrs. Bessie Curran, widow of John Curran, who was killed February 17 by an automobile driven by Reed. Judge Schenck has issued a capias for Reed, to be held at \$1000, for the alleged negligence by the driver's party yesterday.

Local Man Among Six Prisoners Who Escaped From Ironton Jail

Ironton, March 1—Defective bars on the county jail windows allowed six prisoners to escape Wednesday afternoon. The delivery was accomplished during the brief space of a half hour, while the prisoners were supposed to be taking their bath, and immediately after it was discovered by Sheriff Charles Hutchinson and Deputy Sheriff Dillon, they notified all surrounding cities and villages and then started in pursuit of the escaped prisoners.

Three of the men were caught last night at about 10:30 o'clock at Lawrence Furnace by Sheriff Charles

Hutchinson, Chief of Police Mayne and Constable George McKee. The men were Jerry Cooper, the federal prisoner, Robert Johnson, notorious highway robber, Hiram McGarvey, who was in jail for a misdemeanor. They were brought back to this city and are now held at the county jail.

The prisoners who escaped were Andy Depriest, charged with cutting with intent to kill and under a penitentiary sentence; Jerry Cooper, charged with robbing the U. S. mails at Portsmouth during the holiday

season; Gilbert McGarvey, serving a jail sentence for a misdemeanor and with but fifteen more days to serve; the notorious Robert Johnson, charged with highway robbery, and William Berry and John Hale, serving jail sentences for misdemeanors.

Sheriff Hutchinson, Deputy Sheriff Dillon, Ex-Sheriff Glenn R. Sloan, Chief of Police George Mayne and the entire police force of the city took up the pursuit of the men, and the river bank was closely guarded to prevent their escape into Ken-

tucky. The West Virginia authorities were also notified to guard the river bank and prevent the flight of the prisoners to that state.

The prisoners escaped via a rear window, through a space that seemed hardly eight inches in width.

Sheriff E. W. Smith of this city received word from Sheriff Hutchinson of Ironton last night to keep a close lookout for the men who are missing.

SHE MAKES HER HUSBAND HAPPY

Tanlac Makes Cincinnati Man
Quit Worrying About Wife.

WOMAN RECOVERS HEALTH

"The woman who made her husband happy."

That's the way Mrs. W. T. Green, 407 Belts street, Cincinnati, describes herself.

"It seems almost too good to be true when I think that before I took Tanlac, I was so cross and irritable I didn't have a good word or good

MRS. W. T. GREEN.

thought, even for anybody," said Mrs. Green. "I was simply a grump." As she talked, Mrs. Green wore a "Tanlac Smile"—that joyous, sunshiny smile that comes after one has said good-bye to poor health.

Meals "Great." Couldn't Eat.

Mrs. Green continued:

"There was a time when I cooked meals and my husband said, 'Great.' I thought they were, too. They made me hungry and at the same time made me sick. I used to sit down at the table and take on a one-hegona look while my husband ate. Time after time he pleaded with me to 'try and eat something,' but it was an impossibility. My stomach simply wouldn't stand food. I started taking Tanlac and in a short time everything was changed.

"I just can't wait for meals now. And it makes my husband happy to see me enjoy my meals and always be cheerful, where before I started to take Tanlac, I couldn't eat a thing without pains and aches.

Offers Food For Thought.

"When doctor after doctor tells you that he can't help you, that your case is chronic and can't be thrown off—then when you hear of Tanlac through a friend, and it drives off your worries and makes you feel just like new, it's time to sit up and take notice. That's why I feel that I owe everything to this wonder tonic and I want everyone who has health troubles like mine to try it now."

If you don't feel right get Tanlac today. Delay in health matters is dangerous.

Elks Entertain District Deputy; Nominations For New Year

Members of Portsmouth Lodge B. P. O. Elks, Wednesday evening had the privilege of entertaining District Deputy Grand Exalted Ruler U. F. Bickley, of Hamilton, O., and whose territory embraces Southwestern Ohio. He was here in his official capacity and inspected the local lodge.

At the conclusion of the inspection Mr. Bickley, who is one of the leading attorneys of Hamilton, enthusiastically praised the lodge for its splendid turnout, the impressive manner in which a class of five candidates was initiated and the efficient work of the officers. Mr. Bickley made an excellent talk in which he took the occasion to throw a bouquet to his bosom friend Karl Zoellner, past district deputy grand exalted ruler, Grand Exalted Ruler Edward W. Righter of New Orleans and Thomas J. Cogan of Cincinnati, who is tipped as the next grand exalted ruler.

Mr. Bickley gave a brief review of what Elksdom has done in the past year and how rapidly it is growing in all sections of the country and his talk was thoroughly enjoyed. He is a genial clever gentleman and made many friends during his brief stay in the River City.

Nominations for the annual election of the local lodge to be held in two weeks were made last night as follows:

Exalted Ruler Paul Esselborn
Leading Knight Anselm Skelton
Chalmer Davis
Loyal Knight Sidney Anderson
Floyd G. Fuller
Lecturing Knight W. H. Harsha
W. P. Minigo
Tyler Thos. Nichols
Secretary Clarence Nodler
Otto Maiter
Treasurer George E. Krieger
Delegate to Grand Lodge Thos. K. Brushart
Alternate to Grand Lodge Karl Zoellner

Five candidates as follows were initiated last night: Dr. Oral D. Tulje, William Bolles, C. E. Korn, Percy Haubert and Stanley Prichard.

The lodge unanimously decided to turn over its commodious quarters to members of the Ohio City Editors' Association, who will hold their mid-summer meeting here Saturday, June 2 and 3.

Following the meeting at which more than 100 members were present a splendid banquet was enjoyed. Fifteen hustling and tray-carrying waiters served the four course banquet and served it with neatness and despatch, in fact the waiters made a big hit.

They were right on the job and Joe Kountz marshalled his forces like a veteran.

It was a thoroughly enjoyable meeting and before taking his departure for his home in Hamilton District Deputy Grand Exalted Ruler U. F. Bickley said it was one of the most enthusiastic meetings he had ever attended, he being greatly impressed with the enthusiasm and spirit shown by the lodge, which now has a membership near the 350 mark.

PORTSMOUTH MAN TELLS ABOUT THE FOOD RIOTS IN NEW YORK CITY

From the standpoint of a visitor, New York up until Sunday, last, was much more excited over the food riots than the submarine crisis. This was before the present situation was brought about.

Il. Glenn Duis, who went to New York several days ago to purchase goods for the Marting Dry Goods Company, writes to a local friend:

"I was down to Brooklyn bridge but there were no marines on duty—only a couple of blue coats. 'Neither did I get to see the 'Vaterland', as I found that all of the German ships were lying over at Hoboken, N. J., and it was too late yesterday, as well as too cold, to make the trip.

"Food riots are occupying most of the attention of the citizens here, now. Ralph Marling and I saw about a dozen speakers talking to a big crowd at Madison Square Saturday evening.

"The father and mother of a New York salesman, who makes Portsmouth frequently, had rather a harrowing experience not

long ago. They had motored down on the East Side to a fish market to buy some fish, believing that the fish would be much better there.

"It seemed that the foreign women there had been boycotting the fish markets on account of the raise in price. But no trouble was expected by the man and woman.

"As the two came out of the fish market, a crowd of women rushed them. One pulled a handful of hair out of the lady's head. The two managed to make their way to the automobile, but not before they were pretty badly used up."

EASTERN PART OF COUNTY PAYS THREE TIMES AS MUCH TAXES AS WESTERN PART OF COUNTY

Not considering the taxes collected in Portsmouth and New

Boston for the first half of 1916, the eastern part of the county pays just about three times as much as the western part of the county. In size the two portions are about equal.

This comparison is shown on a study of the distribution sheet, which was recently completed by Gilbert F. Dadds, county treasurer. This shows that the eastern part pays \$95,931.79 and the western part, \$32,940.58.

The figures used are:

Eastern Part

OHIO UNIVERSITY AND O. S. U.

We read with much interest Mr. Aronhold Schapiro's card in Wednesday night's paper in which he spoke in favor of the Lloyd bill which would take the name of Ohio University at Athens and give it to Ohio State University at Columbus. We do not blame Mr. Schapiro in standing up for his alma mater, for being loyal to her ambitions and her dreams. We too would like to see the institution at Columbus become one of the greatest in the land, but we want her to do it without working injustice upon other colleges and institutions of learning in the state.

After reading Mr. Schapiro's card we picked up a copy of the Athens Daily Messenger and therein we came across an editorial relating to the proposed change and it is so interesting that we reproduce it and recommend it to the prayerful consideration of Mr. Schapiro and other O. S. U. alumni in this county:

"It is a small college, but there are those who love it," said Daniel Webster in his famous Dartmouth speech. Ohio University can no longer be called a small college, but there are tens of thousands who love it, men and women, boys and girls, who, at some time during the past hundred years, have come under its influence.

On February 18, 1804, the legislature passed an act establishing a university in the town of Athens, and gave it a name—Ohio University. This was not the first legislation in regard to the pioneer college in the great Northwest. But it was the first legislation dealing specifically with the name 'Ohio University.'

"This was passed one hundred and thirteen years ago—a long time ago in the history of a nation whose Declaration of Independence was made but one hundred and forty-one years ago. Is there another college in Ohio or any state west of Ohio with a longer and more honorable career than that of Ohio University?"

"Picture in your imagination the coming together of the first Board of Trustees of this pioneer college of our beloved State of Ohio. Dr. Eliphaz Perkins had located at Athens, for he had learned that the new college of the west was to be located there. He lived in a double log house, a rather imposing structure for those early days. There were two large rooms on the lower floor with a wide hall separating the rooms. At this house the first board meeting was held on June 4, 1804.

"Can you see that early board coming from different parts of our pioneer country, not in the luxury of a parlor car, but on horseback. There comes Governor Tiffin who has ridden on horseback all the way from Chillicothe, traversing woods and fording streams, in order to be present at the first meeting of the Trustees of Ohio University. Samuel Carpenter came from Lancaster, Rev. James Kilbourne from Worthington, and Rufus Putnam from Marietta. They came along bridle paths, stopped here and there at pioneer huts for their entertainment. 'These men,' writes Mr. Walker in his History of Athens County, 'had traveled fifty to one hundred miles, by blind paths or Indian trails, through dense forests inhabited by wild animals, to this embryo village, for the purpose of establishing an institution of learning.'

"Of these men, Governor Tiffin and Rufus Putnam are the best known. Judge Backus and Judge Woodbridge were graduates of Yale; the Rev. Daniel Story was a graduate of Dartmouth; Rev. James Kilbourne was the first settler at Worthington, Ohio; Doctor Perkins, at whose home they met, was not a trustee, but was very active in the establishment of the university. He, too, was a graduate of Yale.

"On May 3, 1815, a committee of the Board of Trustees appointed to examine the first graduating class, reported that 'Thomas Ewing and John Hunter merit the approbation of the Board of Trustees and that they are each entitled to the degree of Bachelor of Arts and Sciences.' Fifteen years after this, Thomas Ewing was in the United States senate, and later became Secretary of the Treasury, and then Secretary of the Interior. He also later was one of the trustees of Ohio University. Another trustee of these early times was Charles R. Sherman, father of John Sherman and General W. T. Sherman.

"The oldest college building in Ohio is still standing on the Ohio University campus. It is now called Manasseh Cutler Hall. It was erected in 1817 at a cost of \$17,000, a small sum in comparison with the magnificent sums since appropriated by the State of Ohio for educational purposes but what sacrifices this small sum must have cost those early pioneers and how grand and palatial the buildings must have seemed to the boys who came to the University from the pioneer homes of Ohio!

"The history of Ohio University is a long and honorable one. Its sons and daughters, some widely known, some unknown to the book of fame, have played their part in the development of our great nation. They love their Alma Mater. Her name is dear to their hearts. They feel that any act of legislation which would tend to destroy the integrity of the name which their institution has held for over a century would be a gross act of injustice."

Of course there is always the dreadful possibility that Mr. Kearns, our esteemed congressman, may emulate the example of Hon. R. Switzer, and send us a couple of rusty cannon just to show that he is alive to the emergencies that confront the nation.

We confess to having no more curiosity than a full grown man but at any rate we would like to know if Irouton filed her city officials, with all their red light music proclivities, along with her other choice exhibits designed to seduce the armor plate board into selecting her as a site for the government armor plate plant.

What makes us pretty mad at the Imperial German government, almost to the point at times of endangering our neutrality, is the way she assumes such an air of grieved surprise when, after she has blown up a ship belonging to some nation that has no more to do with the war than a rabbit, said nation seems to be somewhat provoked.—Ohio State Journal.

By polling a number of conspicuous experts on the question "Is it ever right to lie?" a New York minister has learned that although it may not be right it is not unfashionable.—New York Sun.

FORCE OF HABIT

CRITICISING

One of the worst examples of humanity is the man who gets mad easily. He is touched on the raw by every little untoward circumstance that falls his way. It is a very unfortunate disposition. There is not much sense in getting mad any time. It does no good and may do much harm. The man who flares up because he is criticised shows a weakness that is pretty fair proof that the criticism is well directed. If we got mad every time we were found fault with we would go out and whip the mayor, the governor, Dr. Gladden and all the fellows of our size that we could find. But we don't get mad. We rather like a criticism. It is like a little breeze blowing around the corner, scattering the dust and making room for the sunshine. The only thing about criticism that we don't like is hate. We don't want people so burdened to criticize us, for we are certainly free from it when we criticize them. So, brethren, don't be scared about anything except your own venom. We are not, even of that.—Ohio State Journal.

One of our commissioners says that he is glad to see that the citizens of Sciotoville rose en masse to say "Amen" to the proposition that the crossing under the B. & O. tracks be repaired and made passable. "New," said the commissioner, "if the same citizens will just get busy en masse and repair the crossing, all will be well. It is their plain duty to do so, and not that of the commissioners for the crossing is within the corporate limits of Sciotoville. Under the law the commissioners cannot expend money within the corporate limits of a town so it is up to the government of Sciotoville." And so "the buck is passed" to Sciotoville. Let the council of the town get busy and fix up the eye sore at once.

All is not joy and peace in the publication of a newspaper. Take Wednesday for instance. The leased wire over which The Times receives its telegraphic news was put out of business by the snow storm, having broken somewhere between here and Columbus. The Western Union only had one commercial wire working out of town towards Columbus and could not rig up another. Arrangements were then made with the dispatcher's office of the N. & W. to borrow a wire from them for a time as their wires were in good shape. In the meantime bulletin messages were sent by the press association over the commercial wire of the Western Union and finally about one o'clock our own leased wire "kicked in," having been repaired. From that time on to press time service was uninterrupted.

Judging by the manner in which our eminent lawyers are all getting rich and soaking down their hard earned cash into real estate, we have concluded that we made a mistake some 26 years ago when we decided that law was a dull and listless profession and that there was more chance in a minute to get rich and famous in the printer's trade than there would be in the law business in a century.

It has been said that about the only things left which may be had at reasonable prices are the luxuries.—Marion Star.

NEW-YORK-DAY-BY-DAY.

O-O-MEINTYRE.

New York, March 1—He has ten medals for bravery in the trenches. I met him at a social affair and out on a little enclosed balcony between dances he puffed at a cigar and told me his story.

He is a Canadian and enlisted at the beginning of the war. In France he was "gassed." The condition brought on by the gas produces saliva running from the mouth, eyes and nose and a contraction in the chest which makes it impossible to lie down.

In a hospital he was given morphine. When he was able a solution of morphine and a syringe were placed by his bed and he could use it as often as he wished. "They meant to be kind to me," he said, "but they made me a hopeless drug fiend."

When he left the hospital he returned to his colors and fought in the Louvain and Marne engagements. Again he was wounded and again he got more morphine. At the Somme front he was wounded for the third time—and he got more morphine.

He told me it was easy enough to get morphine in the trenches. The scarlet women who follow in the wake of the army are well supplied with drugs and they sell it to the men. Despite the fact that he got a Victoria Cross for daring, when he arrived in America he was a trembling, cringing, shivering Lark of a man from drugs.

Friends secured quarters for him in the C. B. Towns hospital on Central Park West and here he fought the battle and won out. His experience, however, has saddened him and he does not believe he will ever be happy again. "I think," he said, looking out over the lights of Manhattan, "constantly of the wounded men in the trenches who, if they survive, will be in the clutches of morphine. And the majority will not be so lucky as I have been."

In a Brooklyn Court, Dr. Edward Piper gave an insight into life on the surface cars there the other day. The doctor was arraigned on a charge of assault preferred by Harry Bennett, a conductor.

Dr. Piper said he got on the car and gave Bennett ten cents. He presently felt a weight in his hand, heard a great clanking, and looking

into his hand found therein five pennies.

According to the conductor, the next thing he remembers is that Dr. Piper took a snakewood walking-stick and hit him in such a way that it wrapped around his neck and killed him.

Dr. Piper had very little to say, except that he cared nothing for pennies—in fact they seemed to annoy him.

"The Theatre Workshop" is a new group of intellectual brilliant who are out to whop the grand and noble cause of uplift. Their aims are carefully outlined in a circular I have just received. Arthur Hopkins is one of them and there are many others on the list who are more or less prominent.

They ask for work from people who can write plays. And that in my opinion is nonsensical. The people who can write can place their own stuff. What is needed in New York is to help the young and timid beginner.

There are hundreds of ambitious young men and women in New York who are living in the garrets and bowers of Washington Square literally starving because no one will help them.

Many of these people are talented—much more than many who have arrived—and what they need is aid. There is one poet downtown who sold a poem only after borrowing ten cents for carfare to an editor's office.

Let The Flag Wave

Let the flag wave! Aye, let it wave on high, its red and white and blue against the sky! From crest and casement, broad and bright and brave, Let the flag wave!

Let the flag wave! Aye, let it wave above the hills and valleys of the land we love, And o'er the sea, to mad tyrant slave, Let the flag wave!

Let the flag wave! Aye, let its glory shine! Let the flag wave, a symbol and a sign! To guard our honor and to shield and save, Let the flag wave!

Let the flag wave! Aye, wave in all men's sight, Its stars unsullied as the stars of night, Its stripes unblemished; only this we crave— Let the flag wave!

EXPOSE GERMAN PLOT TO PLAY JAPAN AND MEXICO AGAINST U.S.

Washington, March 1—A letter, forming the basis of Germany's plotting forwarded from Berlin January 19, via Count Bernstorff, for the German envoy, Von Eckhardt, at Mexico City, said: "On the first of February we intend to begin submarine warfare unrestricted. In spite of this, it is our intention to endeavor to keep the United States of America neutral. If this attempt is not successful we propose an alliance on the following basis with Mexico: That we shall make war together and peace together. We shall give general financial support and it is understood that Mexico is to re-conquer the lost territory in New Mexico, Texas and Arizona. The details are left to you for settlement. You are instructed to inform the president of Mexico of the above in the greatest confidence as soon as it is certain that there will be an outbreak of war with the United States and suggest that the president of Mexico on his own initiative should communicate with Japan suggesting adherence at once to this plan, at the same time offering to mediate between Germany and Japan. Please call to the attention of the president of Mexico that the employment of ruthless submarine warfare now promises to compel England to make peace in a few months."

LETTER IS AUTHENTIC SAYS WILSON

(BULLETIN)

Washington, March 1—President Wilson stands sponsor for the declaration that Germany attempted to plot Japan and Mexico into a conspiracy against the United States.

In a formal statement, Senator Swanson told the senate today:

"President Wilson authorizes me to say that the Zimmerman letter to the German embassy in Mexico proposing an alliance with Japan and Mexico is substantially correct."

The statement followed introduction of a resolution by Senator Lodge inquiring as to the correctness of the letter.

Senator LaFollette wanted the Lodge measure modified so it would bring out when the letter came into this government's possession. Lodge acceded to the modification.

Senator Hardwick indicated his intention to object, saying it was a serious matter and that the president would be relied upon to inform the senate if he deemed it wise and that in any case the executive himself would act properly. Lodge flared up.

"I put it in because it is a serious matter. If it is false the country ought to know it to allay the excitement it has caused. If it is true certainly congress ought to know it."

Senator Works, California, said it is now due to congress and to the country that President Wilson fully presents to congress "all information" he may have.

BULLETIN

Washington, March 1—Japanese Ambassador Sato today denied any knowledge of the alleged implication of Japan in the reported German-Mexican plot, but admitted that the report that Germany had made such an attempt through Mexico was probably true.

"It is a very interesting story," he said, "which I have heard for the first time from press reports. If any advances were made by my government I have had no knowledge of it."

Unusually thick weather and the seas made it impossible for life savers to reach the helpless steamer.

Wilson Reveals Proof Of Germany's Machinations

Washington, March 1—Germany wants to play Mexico and Japan actively against the United States in case of war.

This plot, revealed by the administration today through documentary proof of Germany's machinations, was put forth to sway a dallying congress and stir the nation to the real perils of the German problem.

Facing the possibility of further delay in congress, plus opposition to avoidance of an extra session, the administration played its trump card—the correspondence between Germany and its Mexican representative whereby it sought to alien Mexico and Japan beligerently against the United States. The documents, in possession of this government for some time, show clearly that Germany meant to play this tremendous menace as a club over the United States to keep her neutral and to prevent the stand the United States took on the late ruthless submarine edict.

LETTER GIVES THE LIE TO GERMAN EXPRESSION

Besides being destined as a check to over-enthusiastic, but perhaps well-meaning pacifists, who, it was feared, would lull the nation into too great a feeling of security, it gave the lie direct to German expressions of surprise, voiced by Chancellor Bethmann-Hollweg over America's "misinterpretation" of Germany's unlimited U-boat war decree. It also stands as a reply to Bethmann-Hollweg's feigned surprise at the "brusqueness" of President Wilson in breaking the friendly relations between Germany and America that was an "heirloom from Frederick the Great."

The letter signed by Zimmermann, the German foreign secretary, sent to the Mexican government and other documents in the hands of government heads, is the answer to the administration's insistence upon power for President Wilson to arm ships and otherwise deal with the German problem, it was understood in administration circles.

ANSWER TO WILSON'S ANXIETY OVER JAP SITUATION

It is the answer to administration's apparent anxiety over Japan, as shown in efforts to kill anti-alien legislation aimed at the Japanese.

It is the answer to President Wilson's "going slowly" in order that he might be the better prepared for action when the time came. Above all, it is intended as the goad to congress.

Just how Mexico and Japan have taken the proposals is not known definitely.

Only a short time ago, however, Carranza suggested an embargo on supplies to the allies and there was the hint that the Mexican oil supplies of the British navy would be halted. Japan has been hinting at trouble if the anti-alien bills were passed.

Hence, it is known that in these respects the two nations were trying the secret club of threatened trouble against the United States.

MEXICAN-JAPANESE SITUATION LOOMED LARGE THE ADMINISTRATION HAS SHOWN ONLY PART OF ITS HAND. THE MEXICAN-JAPANESE MENACE HAS LOOMED LARGER THAN OFFICIALS CARED TO ADMIT PUBLICLY.

The menace bared in the prima facie evidence of the German deceit, recalls stories of emissaries who went back and forth from Mexico City to Tokyo.

It recalls stories of German reservists gathering in Mexico City.

It recalls wild stories—always branded so officially—of the presence of Japanese in large numbers in Lower California.

It recalls activities of Captain Boy-Ed and Captain Von Papen, in Mexico, and in other countries south of the Rio Grande.

It is given frankly, but not officially, as one of the greatest reasons the administration sent Secretary of State Lansing and the attorney general to congress to plead for the most stringent and rigid bills this government has ever considered.

At least goaded by congressional delays and prospects of an even wider filibuster starting today to kill the armed neutrality bill, cripple the navy supply bill and force an extra session, the administration showed the main part of the plot.

BEHIND PLOT IS SINISTER TRAIN OF FACTS

Behind the plot lies a sinister train of facts.

German agents followed developments of the Mexican peace conference at Atlantic City. After they appeared it was noticeable that Luis Cabrera, clever diplomat, member of the Mexican group, gave out disquieting hints.

He talked of the relations of Japan and Mexico—a sinister hint that the American government did not fail to note though at the time it did not suspect that there was, in the making anything so tremendous as a German plot that might rest upon the very existence of this nation.

Since then there have been German spies on the Mexican border.

There have been secret missions between Mexico and Washington on the part of Teuton diplomats. But the message intended for the German envoy at Mexico City came into American hands opportunely, and gave this nation sufficient warning where with to combat the machinations.

Now the whole affair for the time being is up to congress.

Despite this menacing turn in an already tensely strained situation, Senator LaFollette when the senate adjourned early today to meet again in mid-forenoon, served notice that he had three days material ready for a filibuster. He is opposed to the extent of the navy bill.

In connection with the revelation of the German-Mexican-Japanese situation, it was strongly hinted today the government already has information or has lines out to get it, concerning the recent Cuban uprising, quite generally interpreted as of German origin.

Authorities here have watched that case closely in view of the dangerous possibilities to the United States.

Back of these international plottings may be a plot within the United States to encourage food riots as propaganda support of an embargo on supplies to the Entente allies.

It is known secret service men are engaged, not only on the Cuban-Mexican-Japanese angle, but likewise on the domestic situation.

It is hinted the department of justice might have startling facts concerning the food matter shortly.

NO DISTINCTION TO BE MADE BY U-BOATS

Amsterdam, March 1.—There is no distinction made by German submarines in sinking neutral ships in the barred zone, and the fact that the American steamer Orlean safely passed through the danger section is not to be attributed to any withholding of Germany's weapon. Comments of Berlin newspapers received here today made this clear.

Nearly all quoted Foreign Secretary Zimmermann as asserting: "We make absolutely no distinction. Our determination is unshakable, since that is the only way to finish the war this summer, a desire in which we all join."

The Berlin newspapers assumed that fogs which were officially reported as having delayed the Orleans arrival also hindered operation of the submarines. The fact that the Laconia was sunk at night, contrary to usual submarine operations was referred to as indicating the adaptability of submarines and the difficulty of all vessels will leave in escaping them.

WILSON BEHIND SENATE BILL

(BULLETIN)

Washington, March 1—President Wilson has informed congress that he stands flatly behind the senate bill granting him full powers and a vote of credit to handle the international situation. This was made known at the White House following reports that the president approves the house bill which greatly modifies his request. The president will sign the measure only when it conforms with his full desires and for that reason he is putting all of the administration strength behind the bill, drawn by the senate committee.

LATIN-AMERICAN NATIONS TO CONFER

Buenos Aires, March 1.—Chile has received a proposal from Argentina to participate in a conference of all Latin-American nations, according to a Santiago dispatch printed today by La Nacion. No date was set in the proposals, but Buenos Aires was specified as the meeting place for the conference to urge peace in Europe and it was noticed that the United States was not included in the nations asked.

BRITISH WITHIN A MILE OF BAPAUME

London, March 1.—British forces are within a mile of Bapaume. The German retreat is still in progress, but during the last day or so the harassing of the advancing British troops has been more pronounced. Every sort of expedient is being used to delay the forward progress of Field Marshal Haig's forces.

The front on which the British have advanced was increased today to approximately 13 miles by announcement of the occupation of positions more than half a mile northeast of Gommecourt. This is approximately the most northerly point from there down to a position about midway between Guedecourt and Beaulencourt, the new advanced front of the British zig-zags in and out. Front dispatches today declared Gommecourt fell without a blow from the enemy, the British simply slipping in on a deserted village.

Evidence accumulates that the recapture of Bapaume is under way. Information from the front today said the Germans had methodically destroyed all high towers in the city plainly in order to prevent their utilization by the British as observation posts, when Bapaume fell into their hands.

Tyrus Cobb May Regain Lost Crown

Detroit, March 1.—Tyrus Cobb, the superman of baseball, will make the supreme effort of his career to regain his batting laurels this season. Only those who are close to the great Detroit outfielder and who have watched him perform, season after season, realize the keen disappointment which came to him last fall when he was

compelled to remove his batting crown and hand it to his bosom friend, Tris Speaker.

Cobb had led the American league for nine consecutive seasons. His ambition was to lead it for a decade. He failed, and, as he is now more than 30 years old and certainly not quite as fast as he was three years ago, there

is virtually no chance that he can lead his league for a span of ten years.

But Cobb, one of the gamest ball-players that ever lived, is going to try. He has spent the winter in the open, keeping his nerves steady, his body strong and his eyes clear. He already has told Manager Jennings that he will report with the veterans at Wabasha, Minn., on March 10.

City League

In the City Basketball League tonight the Whitaker-Glessner Fellowship club will clash with the Club quintet at the Club at 8 o'clock. The Club quintet is in the cellar, not having won a game so far, but tonight they are counting on turning in their first victory with the steel plant five as their victims.

The Whitaker-Glessner quintet is standing third in the league and in the

last few games have been fighting hard to get out of that hole. Their last few games have been lost by small margins. Strickland will not be in the game for the steel plant team tonight. Ammon, the oil reliable, will be on hand and he will fill the hole caused by Strickland's absence. Kahmar is back into the game for the Club along with Kendall, star center and Uhl and Spangler chief forwards.

Is Wagner Through?

Pittsburgh, March 1.—When President Barney Dreyfus, of the Pittsburgh Baseball club, announced today that he had secured by waiver route Warren Adams, a first baseman, from the Brooklyn team, he said that he felt a little more secure over the first base position than he had been since Saturday night. At that time he tried to get Hans Wag-

ner to tell him whether or not he would go south with the team, and the Dutchman refused to say. Dreyfus said today:

"I have serious doubts of Wagner's staying up, as he is 32 pounds over weight and I don't believe he wants to take the trouble to go into training to get the surplus off."

Team May Arrive Early

Glyde Strickland, business manager of the P. H. S. basketball team, sent a letter to the management of the Catholic Academy high school five Wednesday night notifying the up river squad to try and reach Portsmouth Friday afternoon

on the N. and W. train due at 3:45, so that the game can be started at 7 o'clock sharp.

The sixth number on the high school league course will be given at 8 o'clock Friday night.

Kauff Makes First Homer

Marfa, Texas, March 1.—The Giants went to work today. Manager John J. McGraw has arrived. Benny Kauff saw him first and hit a fair ball over the fence. Infielders and pitchers are getting all the attention so far.

"SAFETY FIRST"

Sunday golf is in vogue now in almost every city of the United States. Golfers are forbidden to play on the public courses of only two big cities—Boston and Kansas City—on Sunday. Why? For the simple reason that life would be endangered owing to the crowded condition of these pleasure spots.

Mr. Toney Wants Bonus

First Toney, star pitcher of the Reds is a modest chap. He wants \$5,000 in salary this season and a liberal bonus if he wins 20 games. Last year Toney pitched fine ball for the Reds, but was unlucky and did not win a tremendous amount of games.

And Mr. Roush Is A Holdout

Outfielder Roush of the Reds is a genuine holdout. He says he will not dip the quill in the ink until his salary is given a healthy boost over last year. Roush was formerly a Giant, and he created no furor in the National league by his playing after garbing himself in Red hose.

Richmond In Central

Grand Rapids, Mich., March 1.—Richmond, Ind., will be awarded the Terre Haute franchise in the Central league, according to announcement by league president J. E. W. Dickerson Tuesday on his return from the Hoosier city. It is stated that the Central corporation has been formed to back the club there.

Wally Schang Has Signed

Philadelphia, March 1.—Wally Schang, catcher, signed his contract with the Philadelphia American league baseball team today. He was the last of the big three holdouts, Strunk and Bush having signed yesterday.

Perry Has Many Bouts

Columbus, March 1.—Jack Perry is known as the "famous himself" that is, he has since he started boxing here in Columbus. Jack took the belt by the throat and started an invasion last week. Three days later he took a bout with a day's notice and trimmed a 150 and night, Ray Parks, of Bradbrook, Pa. Jack says he has fought probably for Pittsburgh and made boxes in the amateur variety. He is booked to fight here, several Saturday. Then Jack is going to Philadelphia, to fight and get that "fading spirit" out of his system, and then he will have a fight in his home town.

OHIO UNIVERSITY AND O. S. U.

We read with much interest Mr. Arnold Schapiro's card in Wednesday night's paper in which he spoke in favor of the Lloyd bill which would take the name of Ohio University at Athens and give it to Ohio State University at Columbus. We do not blame Mr. Schapiro in standing up for his alma mater, for being loyal to her ambitions and her dreams. We too would like to see the institution at Columbus become one of the greatest in the land, but we want her to do it without working injustice upon other colleges and institutions of learning in the state.

After reading Mr. Schapiro's card we picked up a copy of the Athens Daily Messenger and therein we came across an editorial relating to the proposed change and it is so interesting that we reproduce it and recommend it to the prayerful consideration of Mr. Schapiro and other O. S. U. alumni in this county:

"It is a small college, but there are those who love it," said Daniel Webster in his famous Dartmouth speech. Ohio University can no longer be called a small college, but there are tens of thousands who love it, men and women, boys and girls, who, at some time during the past hundred years, have come under its influence.

"On February 18, 1804, the legislature passed an act 'establishing a university in the town of Athens,' and gave it a name—Ohio University. This was not the first legislation in regard to the pioneer college in the great Northwest. But it was the first legislation dealing specifically with the name 'Ohio University.'

"This was passed one hundred and thirteen years ago—a long time ago in the history of a nation whose Declaration of Independence was made but one hundred and forty-one years ago. Is there another college in Ohio or any state west of Ohio with a longer and more honorable career than that of Ohio University?

"Picture in your imagination the coming together of the first Board of Trustees of this pioneer college of our beloved State of Ohio. Dr. Eliphaz Perkins had located at Athens, for he had learned that the new college of the west was to be located there. He lived in a double log house, a rather imposing structure for those early days. There were two large rooms on the lower floor with a wide hall separating the rooms. At this house the first board meeting was held on June 4, 1804.

"Can you see that early board coming from different parts of our pioneer country, not in the luxury of a parlor car, but on horseback. There comes Governor Tiffin who has ridden on horseback all the way from Chillicothe, traversing woods and fording streams, in order to be present at the first meeting of the Trustees of Ohio University. Samuel Carpenter came from Lancaster, Rev. James Kilbourne from Worthington, and Rufus Putnam from Marietta. They came along bridle paths, stopped here and there at pioneer huts for their entertainment. 'These men,' writes Mr. Walker in his history of Athens County, 'had traveled fifty to one hundred miles, by blind paths or Indian trails, through dense forests inhabited by wild animals, to this embryo village, for the purpose of establishing an institution of learning.'

"Of these men, Governor Tiffin and Rufus Putnam are the best known. Judge Backus and Judge Woodbridge were graduates of Yale; the Rev. Daniel Story was a graduate of Dartmouth; Rev. James Kilbourne was the first settler at Worthington, Ohio; Doctor Perkins, at whose home they met, was not a trustee, but was very active in the establishment of the university. He, too, was a graduate of Yale.

"On May 3, 1815, a committee of the Board of Trustees appointed to examine the first graduating class, reported that 'Thomas Ewing and John Hunter merit the approbation of the Board of Trustees and that they are each entitled to the degree of Bachelor of Arts and Sciences.' Fifteen years after this, Thomas Ewing was in the United States senate, and later became Secretary of the Treasury, and then Secretary of the Interior. He also later was one of the trustees of Ohio University. Another trustee of these early times was Charles R. Sherman, father of John Sherman and General W. T. Sherman.

"The oldest college building in Ohio is still standing on the Ohio University campus. It is now called Mausseuh Cutler Hall. It was erected in 1817 at a cost of \$17,000, a small sum in comparison with the magnificent sums since appropriated by the State of Ohio for educational purposes but what sacrifices this small sum must have cost those early pioneers and how grand and palatial the buildings must have seemed to the boys who came to the University from the pioneer homes of Ohio!

"The history of Ohio University is a long and honorable one. Its sons and daughters, some widely known, some unknown to the book of fame, have played their part in the development of our great nation. They love their Alma Mater. Her name is dear to their hearts. They feel that any act of legislation which would tend to destroy the integrity of the name which their institution has held for over a century would be a gross act of injustice."

Of course there is always the dreadful possibility that Mr. Keane, our esteemed congressman, may emulate the example of Hon. R. Switzer, and send us a couple of rusty cannon just to show that he is alive to the emergencies that confront the nation.

We confess to having no more curiosity than a full grown flea but at any rate we would like to know if Ironton filed her city officials, with all their red light music proclivities, along with her other choice exhibits designed to seduce the armor plate board into selecting her as a site for the government armor plate plant.

What makes us pretty mad at the Imperial German government, almost to the point at times of endangering our neutrality, is the way she assumes such an air of grievous surprise when, after she has blown up a ship belonging to some nation that has no more to do with the war than a rabbit, said nation seems to be somewhat provoked.—Ohio State Journal.

By polling a number of conspicuous experts on the question "Is it ever right to lie?" a New York minister has learned that although it may not be right it is not unfashionable.—New York Sun.

FORCE OF HABIT

CRITICISING

One of the worst examples of humanity is the man who gets mad easily. He is touched on the raw by every little untoward circumstance that falls his way. It is a very unfortunate disposition. There is not much sense in getting mad any time. It does no good and may do much harm. The man who flares up because he is criticised shows a weakness that is pretty fair proof that the criticism is well directed. If we got mad every time we were found fault with we would go out and whip the mayor, the governor, Dr. Gladden and all the fellows of our size that we could find. But we don't get mad. We rather like a criticism. It is like a little breeze blowing around the corner, scattering the dust and making room for the sunshine. The only thing about criticism that we don't like is hate. We don't want people so burdened to criticize us, for we are certainly free from it when we criticize them. So, brethren, don't be scared about anything except your own venom. We are not, even of that.—Ohio State Journal.

One of our commissioners says that he is glad to see that the citizens of Sciotoville rose en masse to say "Amen" to the proposition that the crossing under the B. & O. tracks be repaired and made passable. "Now," said the commissioner, "if the same citizens will just get busy en masse and repair the crossing, all will be well. It is their plain duty to do so, and not that of the commissioners for the crossing is within the corporate limits of Sciotoville. Under the law the commissioners cannot expend money within the corporate limits of a town so it is up to the government of Sciotoville." And so "the buck is passed" to Sciotoville. Let the council of the town get busy and fix up the eye sore at once.

All is not joy and peace in the publication of a newspaper. Take Wednesday for instance. The leased wire over which The Times receives its telegraphic news was put out of business by the snow storm, having broken somewhere between here and Columbus. The Western Union only had one commercial wire working out of town towards Columbus and could not rig up another. Arrangements were then made with the dispatcher's office of the N. & W. to borrow a wire from them for a time as their wires were in good shape. In the meantime bulletin messages were sent by the press association over the commercial wire of the Western Union and finally about one o'clock our own leased wire "kicked in," having been repaired. From that time on to press time service was uninterrupted.

Judging by the manner in which our eminent lawyers are all getting rich and soaking down their hard earned cash into real estate, we have concluded that we made a mistake some 26 years ago when we decided that law was a dull and listless profession and that there was more chance in a minute to get rich and famous in the printer's trade than there would be in the law business in a century.

It has become so that about the only things left which may be had at reasonable prices are the luxuries.—Marion Star.

NEW-YORK-DAY-BY-DAY

O. O. MCINTYRE.

New York, March 1—He has ten medals for bravery in the trenches. I met him at a social affair and out on a little enclosed balcony between dances he puffed at a cigar and told me his story.

He is a Canadian and enlisted at the beginning of the war. In France he was "gassed." The condition brought on by the gas produces saliva running from the mouth, eyes and nose and a contraction in the chest which makes it impossible to lie down.

In a hospital he was given morphine. When he was able a solution of morphine and a syringe were placed by his bed and he could use it as often as he wished. "They meant to be kind to me," he said, "but they made me a hopeless drug fiend."

When he left the hospital he returned to his colors and fought in the Lorraine and Marne engagements. Again he was wounded and again he got more morphine. At the Somme front he was wounded for the third time—and he got more morphine.

He told me it was easy enough to get morphine in the trenches. The scarlet women who follow in the wake of the army are well supplied with drugs and they sell it to the men. Despite the fact that he got a Victoria Cross for daring, when he arrived in America he was a trembling, cringing, shaking Lunk of a man from drugs.

Friends secured quarters for him in the C. B. Towns hospital on Central Park West and here he fought the battle and won out. His experience, however, has saddled him and he does not believe he will ever be happy again. "I think," he said, looking out over the lights of Manhattan, "constantly of the wounded men in the trenches who, if they survive, will be in the clutches of morphine. And the majority will not be so lucky as I have been."

In a Brooklyn Court, Dr. Edward Pipor gave an insight into life on the surface cars there the other day. The doctor was arraigned on a charge of assault preferred by Harry Bennett, a conductor.

Dr. Piper said he got on the car and gave Bennett ten cents. He presently felt a weight in his hand, heard a great clanking, and looking into his hand found therein five pennies.

According to the conductor, the next thing he remembers is that Dr. Piper took a smokewood walking-stick and hit him in such a way that it wrapped around his neck and choked him.

Dr. Piper had very little to say, except that he cared nothing for pennies—in fact they seemed to annoy him.

"The Theatre Workshop" is a new group of intellectual brilliant who are out to whoop the grand and noble cause of uplift. Their aims are carefully outlined in a circular I have just received. Arthur Hopkins is one of them and there are many others on the list who are more or less prominent.

They ask for work from people who can write plays. And that, in my opinion is nonsensical. The people who can write can place their own stuff. What is needed in New York is to help the young and timid beginner.

There are hundreds of ambitious young men and women in New York who are living in the garrets and byways of Washington Square literally starving because no one will help them.

Many of these people are talented—much more than many who have arrived—and what they need is aid. There is one poet downtown who sold a poem only after borrowing ten cents for carfare to an editor's office.

Miss Carol Arbaugh, an employee of the Irving Drexel Shoe company, who has been in Ironton several weeks on account of the illness of her mother, Mrs. N. J. Arbaugh, has returned to the Y. W. C. A., where she resides. Her mother is improving.

Let The Flag Wave
Let the flag wave! Aye, let it wave on high,
Its red and white and blue against the sky!
From crest and casement, broad and bright and brave,
Let the flag wave!

Let the flag wave! Aye, let it wave above
The hills and valleys of the land we love,
And o'er the sea, to mad tyrant slave,
Let the flag wave!

Let the flag wave! Aye, let its glory shine!
Let the flag wave, a symbol and a sign!
To guard our honor and to shield and save,
Let the flag wave!

Let the flag wave! Aye, wave in all men's sight,
Its stars unsullied as the stars off night;
Its stripes unblemished; only this we crave—
Let the flag wave!

The Other Joshua
A traveling man who makes Indianapolis frequently also does considerable work in the mountain or moonshine district of Kentucky. On his last visit to this city he told the following story: He was waiting for a train in a small town, and while waiting he wandered into a court room, where an attorney of the United States commissioner's office was examining an aged negro who was said to have been making illicit whiskey.

"What's your first name?" the official asked.
"Joshua, sah," responded the negro.

"Oh, you are the Joshua who made the sun stand still?" asked the commissioner who was inclined to be facetious.

"No, sah," responded the defendant. "I 'se de Joshua what made de moon shine."
The traveling man does not say what disposition was made of the case.—Indianapolis News.
